

Pablo González, Web Developer

Ourense, Spain, +34 634614612, pablopeiboll@gmail.com

PROFILE

Passionate fullstack developer with more than 6 years creating products and improving code skills. Friendly and open to work with other people around the world.

EMPLOYMENT HISTORY

Nov 2017 — Jul 2022	FullStack Developer TF7, Viewnext <div>Ourense</div> <p>I worked as a Java developer and was responsible for developing all components of the system. This included working on the backend with Oracle and Spring MVC/Spring Batch architecture to create REST services, and on the frontend using JSP and JavaScript for the view</p>
Jul 2022 — Present	FullStack NodeJS, Oriented <div>A Coruña</div> <p>I am currently working as a NodeJS programmer, utilizing the latest versions of technologies such as React for the frontend and Styled Components for CSS. For HTTP requests, I normally use Axios, but depending on the architecture of the application, I may use other libraries. Additionally, I use Express middleware to handle API requests on the backend, and I employ GraphQL queries and mutations to consume data from MongoDB, which serves as the primary database.</p>

EDUCATION

Sep 2009 — Jul 2011	Technological Bachelor, Ies Pedro Floriani <div>Redondela</div> <p>I studied technology with a focus on mathematics and algorithmic problem-solving</p>
Feb 2012 — Jul 2017	Degree in computer engineering, Universidad de Vigo <div>Ourense</div> <p>I completed my university education here, where the focus was on software development and algorithms. I gained experience programming with Java, C++, React, MySQL, and PHP.</p>
